On December 13, 2011, the Office of Fossil Energy (FE) of the Department of Energy (DOE) issued DOE/FE Order No. 3048 (Order 3048) granting Applied LNG Technologies, LLC (ALT) authorization to import liquefied natural gas (LNG) from various international sources by vessel, to import LNG from Canada and Mexico by truck, and to export LNG to Canada and Mexico by vessel, up to the equivalent of 2 billion cubic feet of natural gas, pursuant to transactions that have terms of no longer than two years. The authorization is effective for a two-year term beginning February 24, 2012, and extending through February 23, 2014.

On December 15, 2011, ALT requested that FE amend its current authority to allow it to also export LNG to Canada and Mexico by truck. ALT is not seeking to extend the term of its

current authority, or to modify the requested cumulative volume of LNG authorized for import and/or export.

Accordingly, pursuant to section 3 of the Natural Gas Act, it is hereby ordered that DOE/FE Order No. 3048 is amended to authorize ALT to also export LNG to Canada and Mexico by truck. All terms and conditions of Order 3048 shall remain in full force and effect.
