**Re: Summary of Government-to-Government Consultation Comments**

Dear Mr. Harms:

The enclosure contains a summary of the comments received during government-to-government consultation for TransCanada Alaska Company, LLC's (TC Alaska) Alaska Pipeline Project (APP). One is a general list of issues raised, by topic, that we compiled and provided to each of the Alaska Native tribes with whom we are in government-to-government consultation. The second is a list of issues that requires some sort of specific follow-up action by APP. That list includes identification of the commenting tribe. Some of these items have been brought up in previous discussions between the FERC and TC-Alaska. After TC Alaska addresses these issues with the tribes, both new and old, please provide us with dates, contact information, and outcome.

Thank you for your continued cooperation. If you have any questions regarding these comments, please contact Ellen Saint Onge at (202) 502-6726.

Sincerely,

Michael J. Boyle  
Deputy Director  
Division of Gas – Environment  
and Engineering
